

A SAGA OF THE ODYSSEY OF KADAMBA

THE DAWN OF KADAMBA INTERNATIONAL SCHOOL

Kadamba International School has begun its journey in the year 2011. It was established with a vision and mission to impart better and affordable as well as holistic education to the rural society of Sira to uplift the young minds to an international standard. So the management decided to follow the ICSE/ISC Board in its curriculum.

A Trust was formed under the name, SLG Educational Trust, which is a Public Charitable Trust to start the operation. The SLG Educational Trust was formed on 28 March 2011 by Mr. G Avinash, at Balaginagar, Sira, in Tumkur District, Karnataka.

The school started its functioning from **April 2011 with Mrs. Latha Avinash, M.A., BEd. as the first head of the institution.** The name ‘Kadamba’ was chosen because of its divine significance and historical importance. Kadamba stands for its majesty, magnitude, purity and innocence.

The school started its saga of success with play-home and LKG with a total strength of 60 students in Play-home and 16 students in LKG, with three class rooms and three mother teachers. The school began with five teaching faculties including the head mistress and one non-teaching staff in 2011 – 12 academic year.

In 2020-21 academic year, the number of teaching faculties was 47 including the headmistress, and the non-teaching staffs were 5. The great reason behind the great success of Kadamba International School is its dedicated and well qualified faculties.

Kadamba international School has always given more importance to activity-based learning rather than theoretical approach alone from the very beginning of its installation. The school has conducted Curricular Activities, Co-curricular Activities and Extra-curricular Activities at different phases for the holistic development of the kids.

Kadamba International School encourages the holistic development of each student. Our aim is to support learners in becoming curious, reflective and critical in their thinking as global citizens, while fostering higher order thinking skills and real-life problem solving. The slogan of Kadamba International School itself is **“Achieving Excellence Together Being Better Than The Best”**

The school shall stand against any odds for achieving and fulfilling its vision and mission, for its uniqueness and value, with one heart and soul being a model and motivation for the future aspirants, without compromising the quality and morality.

Admiration From The Desk Of The Chairman

Fear Is A Reaction; Courage Is A Decision -Sir Winston Churchill

Success is for those who face life boldly, not for those who turn their face away. Our decision to start an educational institution for the upliftment of the children of Sira not happened all of a sudden. It was a long cherishing ambition. And, I am happy that we've reached half the way in imparting quality education to our students.

But I understand that we have still miles to go to achieve our mission. I appreciate the whole parent's community for their never-ending supports and concerns. I am grateful to all the faculties for their great effort put in their endeavor to make this magazine a well welcomed one. I appreciate all the students of Kadamba Family who have contributed their skill according to their ability. The school is committed to excellence not only in academic but in co-curricular and extracurricular activities also. We have chosen one of the best boards i.e, CISCE Delhi as part of the standardization programme. I wish much more participation from the students with their excellent creativity and imagination.

Wish you all the best and success.

Thank you

The Chairman

Avinash G

Appreciation From The Desk Of The Director

Everyone Is A Genius -Albert Einstein

Kadamba International School has started its saga of journey with a vision and mission to train and frame the cherishing minds to succeed in life. We don't create the best in education but we create the better than the best in life who can face the challenge of life and overcome any adversities to lead a successful life. I appreciate the whole team and their hard work for the success of this priceless piece of art and skill. We have opened the doors for every child to excel in academics as well as in every activity for his/her holistic development. It's your responsibility to get the chance utilized to its maximum.

I wish you all good success in your endeavors.

Thank you

The Director

Latha Avinash

Message From The Desk Of The Principal

An investment in knowledge pays the best interest

-Benjamin Franklin

I am much privileged to be the part of the Kadamba Family which has deeply firmed its roots in the field of education in the rural area of Sira. As education is not only for securing marks, but it must aim at the holistic development of every learner. So, we make all possible opportunities to uplift the standard of each and every ward of the Kadamba Family. The well framed infrastructure with spacious classrooms, well equipped Labs, beautiful playgrounds, eco-friendly solar system, and many more makes Kadamba International School one of the most attractive havens for every learner. We focus on academic excellence as well as the overall development of our students, as we understand that the academic achievement alone cannot provide a better future. We prepare them to improve their score in every subject, but, more than that we prepare them to learn how to live and survive in this world and to become a better human being. Our Vision and Mission are focusing on to achieve the same goal.

Our well qualified and experienced faculties are the pillars of the Kadamba Family built on a strong foundation of the management with great mission and goal.

I appreciate the whole team for their commitment and strive to make this effort fruitful. Let us all join with our hands to work better for a bright and blooming future of our kids.

Thank you

The Principal

Message From The Secretary To The Staff

I am overwhelmed to be a part of the School Magazine. It was a unique experience for me. I am indebted to the principal for being instrumental in its publication. We here at KADAMBA are working hard every day to give our students a top-of-the-line education. It's with great pleasure and humility that we look forward to serving each one of you this academic year.

This magazine will open a window of opportunity to many people who will know, that as an institution, we are designed for a bright future.

The editorial board enjoyed making this magazine a vehicle for students to express their innermost thoughts. It was actually a lovely experience to see these enthusiastic and budding writers voicing their feelings through stories, poems, jokes and articles. The editorial board, students and teachers who have been immense help have brought 'KADAMBA CHRONICLES 2021-22' alive with their immense support and rich contribution.

I hope you will enjoy reading of the school magazine and would give your valuable suggestions for the next issue of the school magazine.

Happy Reading and Viewing!!

Message From the Editor's Panel

Dear Readers,

Greetings to you all!!

I am much elated to be the part of the Kadamba Family and the School Magazine. Very few have fully realized the wealth of sympathy, kindness and generosity hidden in the soul of a child. The effort of every educator should be to unlock that treasure and Kadamba International School is an excellent example where everyone strives indefatigably for this.

School Magazines have a great educative value. They encourage students to think and write. We are pleased to present to you the "KADAMBA CHRONICLES" the School Magazine of Kadamba International School.

For you, we have worked hard to bring up an exhilarating flashback of the inception of the school, its history, the events, and the achievements. We have for you, from the students, some informative and inspirational articles, poetry and paintings.

Happy Reading and Viewing!

CONTROLLING ANGER

- Vaishnavi B A (IX)

There once was a young boy who had problem in controlling his temper. So, his father gave him a bag of nails and said, “When you lose temper, hammer a nail into the fence”. In few days the boy hammered so many nails. Over the weeks, the number of nails hammered gradually reduced, and his temper was much in control. His father suggested that the boy now should pull out one nail for each day that he was able to hold his temper. Finally, when the boy was removing the last nail from the fence, his father said “You have done well boy. But look at the holes in the fence? The fence will never be the same, even after repainting. When you say things in anger, they leave a scar just like this one”.

Moral: Anger is a dangerous weapon like a knife.

THE PARROT

-Manasa A.T (VI)

Parrot is a very beautiful bird,
It has a green feather
It has a red beak,
The male parrot has a black ring on the neck.
Parrot eats grains, fruits and vegetables.

It is a talking bird.
Parrot found in warm place.
It lives on trees
People keep it as a pet.
Wow! 390 species of parrots have been found in the World.

SCHOOL

- Nisha Rani (VI)

My school's name is KADAMBA INTERNATIONAL SCHOOL. It is one of the best schools in my city. The building of my school is very big. There are many facilities in my school like Library, Computer lab, Physics lab, Biology lab and Chemistry lab. We are like a family in our school. The teachers are very kind and intelligent. Our school has a big play ground. Our school is offering different games and horse riding to the students. My school also takes part in various extra curriculum activities. The atmosphere of my school is very peaceful and suitable for studies. I love my school very much.

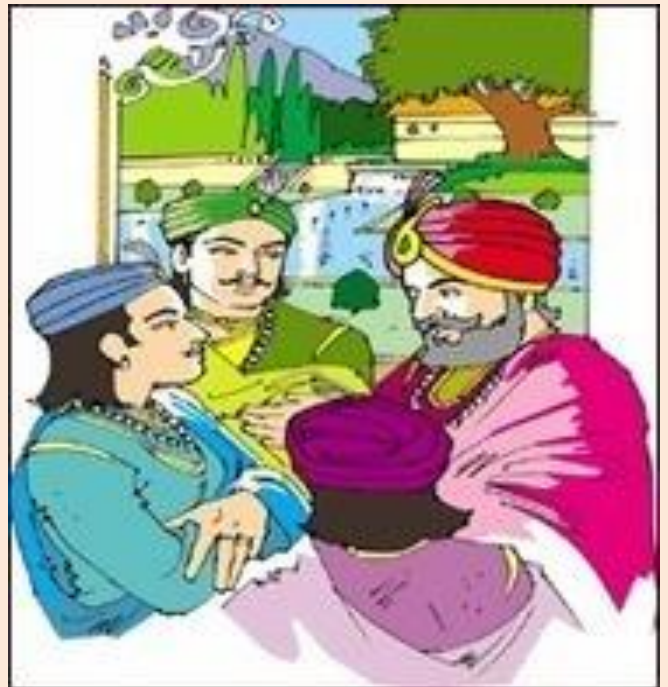

HONESTY IS THE BEST POLICY

-Sagarika M (VII)

Once there lived a king who had grown very old and intelligent, and the thought of retiring came to the king's mind. The king had three sons. It was very difficult for him to choose the next king among his three sons because he loved them all.

One day a thought came to his mind; He called his sons and said to them, "I am giving each of you one seed. I want all of you to plant it, take care of it and come back after a year with what you have. Based on what you bring back, I will decide the next king of the country". He gave the seeds to them. The three sons went back and planted the seed in the pot.

After a year two brothers brought beautiful plants in their pots with lovely flowers and green leaves, except the youngest one. His pot was empty although he used to water the seed every day to make it grow. But still has nothing. When he saw his brothers pot, he became very sad and worried what he would show to his father. One day the king called all the sons to show their plants to him. "Look father, how beautiful our plants are?!" said the elder sons who had plants in their pots. King asked the youngest son, "where is your plant? Your pot is empty".

"My dear father, I am really sorry, I tried my best but no plant grew in my pot". Son replied. "No! you should not say sorry," said the king. Because the seeds I gave to you and your brothers were useless, no plant could be grown with the help of those seeds. Your brothers lied to me, they planted other seeds in their pots. The seeds which grew these plants were not the ones I provided.

But you were honest and told me the truth, and one of the most important qualities of a king is that he should be honest. So, my dear son, you will be the next kin

I WANT TO BECOME!!!!

-Chiradeepthi S.R (VI)

I want to become an Archeologist, so as we know everyone has their own goal or dream. A goal cannot be finished until we keep trying for that. While we should go through so many problems, We should believe in ourselves. For me, my inspired people are my Seven LEGENDS. Now, I am going to tell a story about my inspired persons. They are seven boys from Korea. They wanted to become singers. They asked people to visit their concert, but people didn't accept their invitation and many T.V shows insulted them with unnecessary questions. But they didn't give up their dreams. At their first program there were only few people as audience in their concert, but now millions of people try to get in their concert. From this I understood they believed in themselves and they faced a lot of struggle. If we try very hard, nothing can stop us. So, keep trying until you succeed.

CHANGING ROLE OF WOMEN

-S. Lakshana Priyadharshini (VI)

The traditional image of a woman being confined to the four walls of the house has been changed. This has impacted the society tremendously. Decades back when household chores occupied women for hours, the present-day woman has various machines to help her. She has washing machine, refrigerator and dishwasher. This helps her complete her job in a fraction of the time leaving her with plenty of time to pursue her career or do more productive jobs. Many women successfully combine their career and running a home very happily. They ensure quality time to the children and are perfect role models for them.

In addition to giving a woman her own space and personal satisfaction, a working woman contributes tremendously to the society. The situation in our society is gradually improving, yet there are many battles yet to be won.

NATURE

- Preetham D (VII)

Nature gives us a shelter, and it gives us food
Nature gives us everything.
But nature does not receive anything back
So, we need to keep our nature in good manner.

Nature gives us a gift to breath
And the greenery to enjoy
We use everything from nature
Because to live, and to be in a good manner.

Everything is made by nature
The trees, water bodies and small creatures.
The small creatures and plants that are differently situated.
Nature is a home for many animals.

Nature is a way for good times,
It makes to feel us good and do not harm to the nature.
So, we need to protect and respect it.
And save trees.

EVERYDAY BE KIND TO A STRANGER

- Ananya V (IX)

On the deathbed, Aldous Huxley reflected on his entire life's learning and then summed it up in seven simple words. "LET US BE KINDER TO ONE ANOTHER". All too often, we believe that in order to live a truly fulfilling life we must achieve some great act or grand feat that will put us on the front covers of magazines and newspapers. Nothing could be further from the truth. A meaningful life is made up a series of daily acts of decency and kindness which adds up to something great over the course of a lifeline. Everyone one who enters your life has a lesson to teach and a story to tell. Every person you pass during the moments that make up your days represents an opportunity to show a little more of the compassion and courtesy that defines your humanity. Why not start being more of the person you truly are during your days and doing what you can to enrich the world around you??????? In my mind, if you can make even one.

ADDICTION TO MOBILES

-Lahari A (IX)

Mobile phones provide the freedom of quickly to connect with anyone around the world. They enable us to find information that we need and is a great source of entertainment. While this invention was done with the aim of empowering us, sadly to say that is dominating us. These days all the youths are suffering from mobile addiction.

Our mobile phones enable us to engage in gaming, gambling and online shopping. They connect us with people around the world, allowing us to watch movies, listen to music and enjoy various other activities. It is difficult not to be accustomed to this electric house of entertainment.

Mobile addiction causes many serious problems, such as headaches, weaking of eye sight, sleepiness, depression, social isolation, stress, aggressive behavior, financial problems and less professional development.

Mobile phones have been made for our convenience. We should limit their use to handle our lives. If you think you are becoming addicted to your mobile phones, then see ways to get rid of it. You should also take it as your responsibility to help you get rid of this addiction of your loved ones.

Symptoms of mobile addiction

- Like to connect with strangers online.
- Check mobile phones often
- Always waiting for the notifications

How to remove mobile addiction

- Self help
- Set timings for mobile usage
- Engage in other activities

ABOUT MY SCHOOL

-Lochan K (VII)

My school is just three kilometers away from my house. It looks very clean and peaceful. My school is like a temple because it is light of knowledge. Our teachers are intelligent and they speak very politely in my school. There is a lot of strict rules regarding education, uniforms and cleanliness. I like to go to school every day because my mother tells me that it is important to go to school and follow all the disciplines. School is a temple of knowledge.

The atmosphere of my school is calm and quiet. Our school is located in the middle of greenery. There is a large garden with colorful flowers and ornamental trees. There is also a facility to play cricket, volleyball and throw ball. My school follows the rules of ICSE board. My school offers classes 1 to 10. The principal of my school is very serious about discipline and cleanliness of each student.

My school is providing bus facility to those who live far away from the school. In my school there are different teachers from different states. My school campus has a large library and labs.

SCHOOL RE-OPENING JOKES

- Hruthik Gowda J (VIII)

a) Teacher: No one is allowed to share any stationary in school because of the Covid

Student: That's why we are not sharing our assignments to teachers

b) Schools will re-open with strict SOP's

One day students will attend

Other day teachers will come

c) Why do you like online classes?

"Because a teacher can stuck, mute and even disappear anytime".
